

Vikas Kumar

Frontend Developer · Full Stack Web Developer

vk0102103@gmail.com | [+91-94732 63768](tel:+91-9473263768) | [Rajkot, Gujarat, India](#) | github.com | linkedin.com | [portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in AI ML with hands-on experience in frontend and full-stack web development. Skilled in building responsive web applications, interactive dashboards, REST API integrations, and real-time data systems using HTML, CSS, JavaScript, Firebase, and Node.js. Developed multiple modern web projects including weather platforms, news aggregation systems, and AI-integrated smart monitoring applications. Passionate about creating scalable and user-friendly digital solutions and actively seeking remote internship opportunities in frontend and full-stack development.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design, UI Development, DOM Manipulation
Backend	Node.js, Express.js, PHP, REST APIs, MySQL, Backend Integration
Databases & Tools	Firebase Realtime Database, MongoDB, MySQL, Git, GitHub, VS Code
Programming Languages	JavaScript, Python, C, C++
Additional Skills	API Integration, Real-Time Data Handling, Dashboard Development, JSON Handling, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

PHP Developer Intern (Remote) <i>Spacece India Foundation</i>	Dec 2025 – Feb 2026 Remote
---	-------------------------------

- Developed backend modules using **PHP** and **MySQL** for dynamic web applications and data management systems
- Built and integrated **REST APIs** for efficient frontend-backend communication and real-time data processing
- Worked on **database optimization** and query handling to improve application performance and response efficiency
- Collaborated on **backend integration** tasks, connecting frontend interfaces with server-side systems and APIs
- Assisted in maintaining scalable backend workflows and improving overall system reliability

PROJECTS

Krishi Drishti (Innovatrix) GitHub <i>HTML, CSS, JavaScript, Node.js, Firebase, YOLOv5, APIs</i>	2025
---	------

- Developed a smart agriculture platform integrating **IoT monitoring**, **AI-based crop protection**, and real-time market insights for farmers
- Built responsive dashboard interfaces with live soil moisture monitoring, weather forecasting, and crop price tracking systems
- Integrated **YOLOv5 AI detection**, Firebase backend systems, and external APIs for real-time automation and intelligent monitoring

Jalmitra – Smart AI Water Cleaning Platform GitHub <i>HTML, CSS, JavaScript, Node.js, Express.js, MongoDB</i>	2025
--	------

- Developed a full-stack environmental monitoring platform for AI-based solar-powered water cleaning systems
- Built responsive frontend pages, live monitoring dashboards, backend APIs, and customer inquiry management systems
- Integrated MongoDB database storage, REST APIs, and automated email handling using Express.js and Nodemailer

WeatherPro – Advanced Weather Platform GitHub <i>HTML, CSS, JavaScript, Open-Meteo API</i>	2025
---	------

- Developed a modern responsive weather application featuring real-time forecasts, GPS location detection, and dynamic weather visualization
- Implemented advanced UI/UX features including glassmorphism effects, animated interfaces, and responsive multi-device layouts
- Integrated Open-Meteo APIs for live weather updates, hourly forecasts, and 7-day weather prediction systems

NewsIndia – Real-Time News Aggregator GitHub <i>HTML, CSS, JavaScript, GNews API</i>	2025
---	------

- Built a responsive real-time news aggregation platform with category filtering, multilingual support, and advanced search functionality
- Integrated GNews APIs for dynamic news retrieval, live headline updates, and category-based content management
- Designed modern grid and list-based UI layouts optimized for mobile, tablet, and desktop devices

- Designed and developed a responsive personal portfolio website showcasing projects, technical skills, certifications, and professional achievements
- Implemented modern UI components, smooth animations, responsive layouts, and integrated GitHub project showcases
- Optimized the website for cross-browser compatibility, mobile responsiveness, and professional developer branding

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering — AI & ML 2024 – Present Marwadi University, Rajkot, Gujarat CGPA: 7.9 / 10.0

ACHIEVEMENTS CERTIFICATIONS

Achievements

- **2nd Runner-Up** — INTELLIFY 3.0 Hackathon for AI IoT-based Smart Agriculture Platform
- **Theme Winner** — Sustain-a-thon 2025 for Smart Technology Innovation Project
- Participated in multiple national-level hackathons focused on AI, IoT, automation, and web technologies

Certifications

- C++ Programming Certification
- AI Tools Automation Certification
- Web Development and Frontend Technologies Certification
